- A broad range of Human Resource Management skills, with high level conflict resolution and negotiation skills
- Experience in contractual and statutory matters
- Experience in networking and facilitation with all levels of Government and stake holders
- Experience in sourcing and managing funding for projects and initiatives
- A high level of communications and interpersonal skills
- An ability to develop and nurture 'best practice' in all aspects of products and services
- An ability to market and promote the services of the organisation
- An ability to interpret data and make strategic and critical observations and recommendation in relation to it.

The following would be an advantage:

- Relevant tertiary or post graduate qualifications
- Sound knowledge of the Seafood Industry and/or fisheries management
- Experience interpreting scientific data and drawing conclusion from it.

Other requirements:

- Current Driver's licence
- Valid Police Check (not more than six months old)
- Undergo Psychometric testing
- Be legally entitled to work in Australia

This position is based in Hobart and is full time/part time (minimum 4 days per week) position.
